DETAILED ACTION

Allowable Subject Matter

Claims 1-16, 18-20, and 30 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1 and 30 have been allowed over the Sesko, Ohshima, Blauvelt, Gordon, and Goossen prior art because they fail, taken singly or combined, to teach the claimed semiconductor laser as recited, which includes the claim limitation regarding **the temperature of the system is allowed to fluctuate with ambient temperature**. It would have been unobvious as to why one skilled in the art would be motivated to modify Sesko prior art in a manner that to eliminate **the temperature control servo** because doing so would destroy the intended purpose of the Sesko reference (MPEP 2143.01).

It is noted that the claimed feature of the instant invention to allow temperature fluctuation is particularly for a specified advantage, i.e., the wavelength is held stable with single longitudinal mode operation of the module being guaranteed (Specs. page 3, third paragraph).

Claims 2-16 and 18-20 have been found allowable due to their dependency on claims 11 and 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
